

Instructions

Compatible with the Apple Pencil.

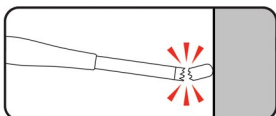

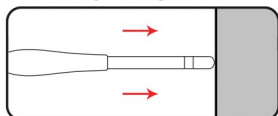

1. Clean the surface of the Pencil thoroughly before installation.

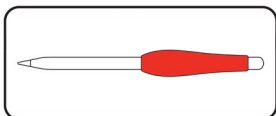

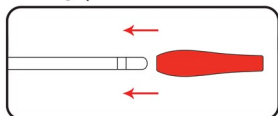

2. To insert: with a firm hold on the center of the Pencil, gently slide the grip from the tip to the back.

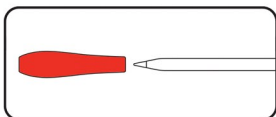

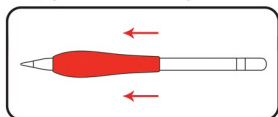

3. **Do not** brace the back against a hard surface while inserting. This may damage the Pencil.

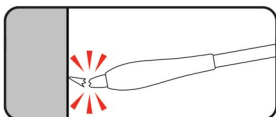

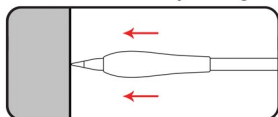

4. **Do not** insert the grip from the back to the tip. This may cause the grip to become stuck.

5. To remove: firmly grasp the center of the Pencil and slide the grip towards the tip.

6. **Do not** brace the tip of the Pencil to a hard surface during the removal. This may damage the Pencil.
